## Motivation

Ambivalences?  
Relationships?  
Experience of  
learning?

## Taking responsibility

Acting, reflecting  
and dealing with  
variable outcomes

## Perception of control over decision-making

What are the  
constraints?  
Where's the  
negotiation?

## Academic machine

Assessment  
Feedback

Skills to build  
competence  
and  
confidence.

Information

Identity

## Managing Learning

The aim of this project is to investigate the ways in which students can manage their learning and provide guidelines for staff on how to support students in this process.
