

# South Yorkshire Engineering Scholarships

are you the bright spark we're looking for?

If you're looking at getting 4 or more GCSE's at A to C and think you could be up to the challenge of gaining top class qualifications and experience, training to become one of this region's top engineers of the future, have a read...

Across South Yorkshire all colleges and training providers are working in partnership to provide this once in a lifetime opportunity for would-be engineers to pocket some cash whilst getting themselves a nationally recognised qualification and quality practical experience of the latest Hi Tech industrial equipment that will put you head and shoulders above the competition.

This opportunity is open to all students who are or wish to study at one of the local colleges on a full time 2 year National Diploma (or equivalent) programme in engineering and looking to become professional engineers in Electrical/Electronic/Mechanical/ Aerospace. Places on the Scholarship Programme will only be awarded on merit for the best and most determined students. First Year students will get £75 per week while second years get £100 per week.

So you can earn while you learn!

Engineering Scholarships

Not only that but the course has been specially developed with leading employers, to kit you out with the right mix of qualification and experience, so you don't face all that hassle of getting qualifications but not having the necessary experience or the other way round, which can be a real pain when you're job hunting.

You'll get the chance to study for a qualification which is equivalent to A Levels and great for moving on to gaining a degree - plus get all the engineering skills you need through work at the college, work placements AND residential activities/industrial visits. Variety is the spice of life and all that...

Not only that but you're in the right place at the right time. South Yorkshire is rapidly becoming a hot bed for Hi-Tech Manufacturing, Advanced Engineering and Metals - not just the Steel stuff that's still around but also Aerospace, Motor Vehicle Parts (including hi tech parts for Formula 1 racing cars), Household Appliances, Alloy Processing and loads more. So, your job prospects are good - Take a look at some of the other Facts if you want to know more.

If this great career opportunity is for you and let's face it, you'd be silly not to be interested, fill in your details on the handy slip below and send it back to us FREEPOST and we'll be in touch.

Places on the programme are limited so you must act fast!!!
