Creating a Buzz: Exciting Science Weeks and Clubs

23rd June 2010

Textile Centre of Excellence, Huddersfield

Running a science week or science club can be an incredibly rewarding experience, but taking on the task of making it happen can be daunting.

This course provides advice, practical tips and contacts to help you plan and organise your science event. You will have the chance to try out some activities that can be included in a science week or club and draw up an action plan based on what you have learned.

YHC09046

Essential Science Enquiry Part 1

30th June 2010

Science Learning Centre Yorkshire and the Humber

This course examines strategies for organising, managing and monitoring effective scientific enquiry throughout the primary school.

Starting points for enquiries, different types of enquiry, progression, assessment, recording and communicating, and resourcing issues will be addressed during the day.

You will be given help to plan for, monitor and manage this highly practical approach.

Course fees are usually £130.

For more information about these and all our other primary science courses please visit our web portal:

www.sciencelearningcentres.org.uk/yh

To book a place you can enrol at the portal, fax back our booking form or call us on 0114 2254891

The national network of Science Learning Centres is a joint initiative by the Department for Education and the Wellcome Trust.
