

STEM AMBASSADORS ILLUMINATING FUTURES

Who are STEM Ambassadors?

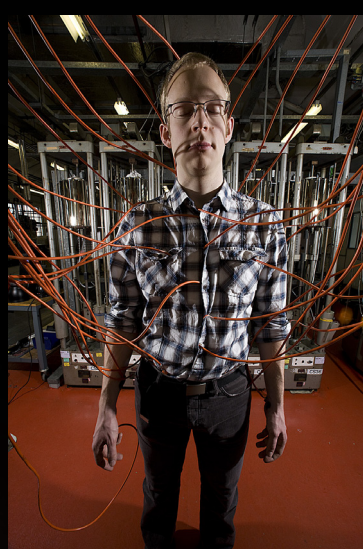

STEM Ambassadors inspire children and young people in STEM subjects.

Ambassadors come from an extremely diverse range of backgrounds and working environments.

What they all have in common is that they use STEM skills in their everyday lives and have a desire to help more young people understand how Science, Technology, Engineering and Maths can help them achieve their potential.

The main qualities that all Ambassadors share are enthusiasm and commitment, along with a real passion for what they do.
