The questionnaire indicates the variety of different approaches to learning. It also supports those who have been having difficulties with their learning. Teachers who would like to reach more students can also benefit from using VARK. It can be used with a group or class or with one-to-one counselling, but it does require some explanation to avoid leaping to inappropriate conclusions

## 5 Learning and Study Strategies Inventory

The Memletics learning styles inventory provides you with a guide to your own personal learning styles. By asking a series of questions, and then scoring the results, it indicates which are your dominant and secondary styles.

Note that you should only use styles inventories as a general guide to your styles - not as an absolute answer. The online learning styles inventory has 70 questions and it provides a graphical results page.
