

Health and Social Care Progression Agreements

Higher Futures has developed a series of Progression Agreements between Sheffield Hallam University, the College partners and Sheffield Teaching Hospitals. These open up routes to three popular courses within the Faculty of Health and Wellbeing.

These Progression Agreements guarantee interviews for students who successfully complete any of a wide range of Health and Social Care courses offered by the partner Colleges, thereby offering a clear progression route from further to higher education.

Progression Agreements were negotiated for entry to the following courses at Sheffield Hallam University:

- Dip. H.E. In Operating Department Practice
- B.A. Hons. Nursing Studies (Adult or Mental Health)
- B.A. Hons. Applied Nursing and Social Work (Learning Disability).

Developments required detailed discussions and liaison with admission tutors from the Department of Nursing and Midwifery, supported by health and social care specialists at Sheffield Hallam University and Sheffield College.
